6. Client Acquisition Playbook
7. Sales Call Script (4-Stage Zoom)
8. 90-Day Roadmap to $10K/mo
9. Legal & Protection Basics
10. Bonus Assets

---

1. BUSINESS NAME SUGGESTIONS

Top Pick

Clawbot *(already in use — strong, keep it)* - Memorable, action-oriented, tech-forward - Pairs with "Clawbot.com.au" or "getclawbot.com.au" - Brand tagline: *"Your 24/7 AI Administrator"*

Alternatives (if rebranding or creating a parent company)

Name	Vibe	Domain Check
TradesMind	Professional, trades-specific, trustworthy	tradesmind.com.au
OpsPilot	Modern, operations-focused, scalable	opspilot.com.au
AdminAI	Dead simple, SEO-rich, memorable	adminai.com.au
GridBot	Industrial feel, trades market, clean	gridbot.com.au
Yardstick AI		yardstickai.com.au

Name	Vibe	Domain Check
	Australian flavour, measurement/precision	

Recommendation: Keep **Clawbot** for the product/service name. Consider a parent company name like **OpsPilot** if you plan to white-label or expand. All domain suggestions should be checked at domain.com.au or auda.org.au.

---

2. CORE OFFER & POSITIONING

The One-Sentence Pitch

> **"We install a custom AI administrator into your trades business in 14 days — it answers your calls, books your jobs, and chases your clients 24/7, or you don't pay."**

The Guarantee

"Booked or Bust" Guarantee: > *If your Clawbot doesn't book at least 3 new jobs in the first 30 days, we'll work for free until it does.*

(This is low-risk for you: the system works. But it removes all purchase friction for the buyer.)

Pricing Structure

Option A — Recommended (Premium Positioning)

Component	Price
Setup & Installation (one-time)	**$12,000 AUD**
Monthly Retainer	**$3,000/mo AUD**
Annual Value	$48,000/yr

Rationale: Positions above cheap SaaS tools. Comparable to hiring a part-time admin ($25–35/hr × 20hrs = $2,500–$3,500/mo). Frame it as "replacing an admin at half the cost."

Option B — Lower Barrier Entry (Volume Play)

Component	Price
Setup & Installation	**$7,500 AUD**
Monthly Retainer	**$2,500/mo AUD**

Use this for first 3–5 clients to get case studies fast. Raise to Option A after.

Option C — Pay-As-You-Go (Low Trust Markets)

Component	Price
Setup only (no retainer)	**$15,000 AUD**
Ongoing support (optional)	**$500/mo AUD**

For established businesses that hate commitments. High upfront = good cashflow.

Add-Ons (upsells)

Add-On	Price
Additional agent (each)	$1,500 AUD
Additional integration (each)	$500 AUD
On-site Mac Mini hardware install	$800 AUD
Team training (per session)	$750 AUD
Priority support upgrade	$500/mo AUD

---

3. TARGET NICHE STRATEGY

Primary Niche (Go Hyper-Specific First)

🎯 HVAC / Air Conditioning Businesses in Greater Sydney

Why this niche: - High call volume (emergencies, seasonal spikes) - Notorious for missed calls = lost jobs ($500–$2,000 per job) - Summer/winter peaks create obvious pain points - Average business: 2–8 techs, overwhelmed owner doing admin - No-shows and scheduling gaps are endemic - Strong ROI story: "1 recovered emergency call = pays for the month" - Sydney has 500+ HVAC/AC businesses; Greater Sydney directory easily sourced - Trades owners respond to ROI, not tech features — easy pitch

Pain Points to Hit: - "You're losing $3,000–$10,000/month in missed calls when you're on the tools" - "Your competitor answers at 11pm. Do you?" - "One missed emergency call in summer = one month's retainer gone"

Backup Niches (Priority Order)

2. Electricians (Solo/Small Teams, Sydney Metro)

- High job ticket ($300–$3,000/job)
- Deeply reactive — calls come in unpredictably
- Quote follow-up is a known revenue leak
- ~3,000 licensed electricians in NSW — targetable database

3. Plumbers (Emergency & Residential)

- Emergency = highest urgency, best use case for 24/7 answering
- "Water's coming through the ceiling" = they need someone NOW
- Plumbers who don't answer lose to whoever answers first
- Strong word-of-mouth referral loop once trust is built

4. Med Spas & Skin Clinics (Inner Sydney / North Shore)

- Higher LTV clients, higher willingness to pay
- Appointment-heavy = scheduling agent is obvious win
- Client follow-up sequences directly drive rebookings
- Affluent owner demographic = less price sensitivity
- Good brand story: "Your clinic runs like a 5-star hotel"

---

4. ONE-PAGER WEBSITE — FULL COPY

Structure: Single long-scroll page. Hero → Problem → Solution → How It Works → What You Get → Proof → Pricing → Guarantee → FAQ → CTA

HERO SECTION

Headline: # Your Trades Business Loses $5,000+ Every Month in Missed Calls.

Subheadline: Clawbot is your 24/7 AI administrator — installed in your Sydney business in 14 days. It answers calls, books jobs, chases clients, and never takes a sick day.

CTA Button: Book Your Free 30-Min Audit →

Social proof strip: ⭐⭐⭐⭐⭐ Trusted by HVAC, electrical, plumbing & med spa businesses across Sydney

---

PROBLEM SECTION

Section Headline: ## The "Busy Tax" Is Killing Your Revenue

You're on the tools all day. Your phone rings — you can't answer. The client hangs up and calls your competitor.

That job? Gone. That's $1,500 you'll never see.

Meanwhile, you're: - Chasing quotes that should've converted weeks ago - Playing phone tag to confirm bookings - Drowning in emails at 9pm - Scrambling to fill last-minute calendar gaps

This is the Busy Tax. And every trade business owner pays it — until now.

SOLUTION SECTION

Section Headline: ## Meet Clawbot. Your AI Administrator That Never Clocks Off.

Clawbot is a custom AI agent we build and install specifically for your business. It knows your pricing, your services, your clients, and your rules.

It runs 24/7. It doesn't take holidays. And it costs less than half a part-time admin.

What Clawbot Does:

✅ **Answers every call** — triages emergencies, books routine jobs, takes messages
✅ **Smart scheduling** — prevents double-books, auto-fills gaps, sends reminders
✅ **Email & SMS automation** — confirms bookings, follows up quotes, updates clients
✅ **Kills no-shows** — automated reminder sequences slash cancellations by 50%
✅ **Ops on autopilot** — parts follow-ups, basic invoicing prompts, job status updates

---

HOW IT WORKS

Section Headline: ## From Chaos to Control in 14 Days

Step 1 — Free Workflow Audit (60 min) We map your business, find your top 3 automation wins, and design your custom agent stack.

Step 2 — We Build It (Days 1–10) Your 3 custom agents are configured with your tone, your rules, and your integrations. 20+ real-data tests run before launch.

Step 3 — We Install It (Days 11–14) On-site Mac Mini install or remote setup — your choice. You get a 30-min training session and your branded Mission Control dashboard.

Step 4 — You Run. It Works. Clawbot handles admin. You handle the work you love. We're on Slack for 14 days to iron out anything.

WHAT YOU GET

Section Headline: ## Everything You Need. Nothing You Don't.

✅ **Included:** - 60-min Workflow Audit — your top 3 automation wins mapped - 3 Custom AI Agents — inbox management, scheduling, client follow-ups - Branded Mission Control Dashboard — everything on one screen - Your Tone & Rules Built In — plus safety guardrails - 5 Tool Integrations — email, calendar, SMS, CRM, ops software - 20+ Real-Data Tests — proven before launch day - 30-min Loom Training — you're self-sufficient from Day 1 - 14-Day Direct Support — Slack access, direct line to me

❌ **Not Included:** - Custom software development (this is AI configuration, not code) - More than 3 agents (available at $1,500/add'l) - More than 5 integrations (available at $500/add'l) - Software hosting fees ($8–50/mo, paid direct — no markup) - Team training sessions (available at $750/session)

SOCIAL PROOF

Section Headline: ## Real Results. Real Businesses.

(Placeholder — replace with real testimonials after first 2–3 clients)

> *"I was losing 3–4 jobs a week just from missed calls. Clawbot paid for itself in the first fortnight."* — **[HVAC Business Owner, Western Sydney]**

> *"I used to spend Sunday nights answering emails. Now I don't touch it. The bot handles everything and my clients don't even know it's AI."* — **[Med Spa Owner, North Shore]**

> *"Booking confirmations go out automatically, no-shows are down, and I actually took a weekend off for the first time in two years."* — **[Electrician, Inner West]**

PRICING SECTION

Section Headline: ## Straightforward Pricing. Massive ROI.

	Starter	Growth
Setup (one-time)	$7,500	$12,000
Monthly Retainer	$2,500/mo	$3,000/mo
Agents	3	3
Integrations	5	5
Hardware Install	Add $800	Included
Support	14-day	Priority ongoing

Compare to hiring an admin: Part-time admin (20hrs/wk) = $2,500–$3,500/mo — and they don't work nights, weekends, or public holidays.

CTA: Book Your Free Audit — No Obligation →

GUARANTEE SECTION

Section Headline: ## The "Booked or Bust" Guarantee

If Clawbot doesn't generate at least 3 new booked jobs in your first 30 days, we keep working — at no extra charge — until it does.

No fine print. No conditions. Either it works, or we make it work.

FAQ SECTION

Q: Do I need to be tech-savvy? A: No. We handle everything. You get a simple dashboard and a 30-min training. If you can use a smartphone, you can use Clawbot.

Q: Will my clients know it's AI? A: Only if you want them to. Clawbot uses your business name, your tone, and your rules. Most clients assume it's your receptionist.

Q: What software does it connect to? A: ServiceM8, Tradify, Xero, Google Workspace, HubSpot, Calendly, Twilio SMS, and more. Tell us your stack in the audit and we'll confirm compatibility.

Q: What's the hardware option? A: We install a Mac Mini on-site (separate from your personal devices). It runs Clawbot locally — your business data stays on your hardware, not in the cloud.

Q: What happens after the 14-day support period? A: Retainer clients get ongoing support. One-time clients can purchase monthly support blocks at $500/mo. The system is designed to run itself.

Q: Can I cancel the retainer? A: Yes, with 30 days' notice after the initial 3-month commitment.

FINAL CTA

Section Headline: ## Stop Losing Jobs to Voicemail.

Book your free 60-minute Workflow Audit. We'll identify your top 3 automation wins — whether you hire us or not.

5. TECH STACK SETUP GUIDE

Core Infrastructure

AI Agent Platform

OpenClaw (already in use) — primary agent runtime
- Install on Mac Mini (on-site) or MacBook (remote operation) - Node.js v18+ required - Configure per-client: `/workspace/[client-name]/`

Communication Layer

Tool	Purpose	Cost
Twilio	SMS + voice calls	~$0.01/SMS, $0.02/min calls
Google Voice (fallback)	Call forwarding for low-budget clients	Free
SendGrid	Transactional email	Free tier → $20/mo
Bland.ai or **Vapi.ai**	AI phone call handling	~$0.05–$0.12/min

Scheduling & CRM

Tool	Purpose	Cost
Calendly	Appointment booking	$16/mo
ServiceM8	HVAC/electrical/ plumbing job management	$29–$129/mo (client pays)
Tradify	Trade job management alternative	$35–$55/mo (client pays)
HubSpot CRM	Client pipeline (you)	Free tier

Automation & Integrations

Tool	Purpose	Cost
Make.com (ex-Integromat)	Workflow automation backbone	$9–$29/mo
Zapier	Simple integrations (fallback)	$20–$50/mo
n8n (self-hosted)	Power users, no per-task fees	Free (host on VPS)

Dashboard & Monitoring

Tool	Purpose	Cost
Notion	Mission Control dashboard (client-facing)	$10/mo
Airtable	Data views + reporting	Free tier
Retool	Custom dashboards (advanced)	$10/mo

Infrastructure

Tool	Purpose	Cost
Cloudflare	Domain, DNS, tunnels	Free
Railway.app or **Render.com**	Remote agent hosting	$5–$20/mo

Tool	Purpose	Cost
Backblaze B2	Backup storage	~$6/mo per 1TB

Client Hardware Setup (On-Site Install)

Equipment: - Mac Mini M2 (base model) — ~$999 AUD - Charged to client or included in setup fee - Configure with separate macOS user account for business automation - Enable Remote Management for your support access

Setup Checklist: - [ ] Fresh macOS install or clean user account - [ ] OpenClaw installed and configured - [ ] Twilio credentials set - [ ] Client email (Gmail/Outlook) connected - [ ] Calendar integration tested - [ ] CRM (ServiceM8/Tradify) API connected - [ ] Dashboard link delivered to client - [ ] Loom training recorded and sent

---

Recommended Monthly Stack Cost (Per Client)

Item	Monthly
Make.com (Automation)	$29
Twilio (Comms)	$30–$80 (usage)
Calendly	$16
Hosting (if remote)	$20
Total	**~$95–$145/mo**

These are billed direct to client (not you). Your margin is protected.

---

6. CLIENT ACQUISITION PLAYBOOK

Channel Priority (Revenue Speed Order)

1. **Cold outreach (fastest to revenue)**
2. **Meta ads (fastest to scale)**
3. **Organic content (slowest but compound)**

CHANNEL 1: Cold Outreach

Target List Building

- **Google Maps scrape:** Search “HVAC Sydney”, “electrician Sydney” etc. — scrape NAP (name, address, phone)
- **Tools:** Outscraper.com, PhantomBuster, or manual Google Maps extraction
- **Yellow Pages AU:** yellowpages.com.au — filter by category + suburb
- **HiPages / ServiceSeeking:** Find active trade businesses with reviews

- **Goal:** 200 qualified leads before you start

Outreach Sequence — Cold Call Script

(Best channel for trades — they're on their phones)

Opening: > "Hey [Name], it's [Your Name] from Clawbot — we install AI systems for trade businesses in Sydney. Quick question — how many calls do you miss a week when you're out on a job?"

(Wait for answer)

> "Yeah, most blokes I talk to say 3–8. That's probably $3–$10K walking out the door every month. We've built an AI that answers every one of those calls, books the job, and follows up — 24/7. I've got a free 30-minute audit I do with local trade owners — no pitch, just mapping where you're losing the most money. You got 30 minutes this week?"

Follow-up SMS (same day if no answer): > "Hey [Name], left you a voicemail re: AI admin for your business. Saves most trade owners 10+ hours/week. Free audit, no strings. Call/text back when you get a sec. — [Name], Clawbot"

Cold Email Template

Subject: [Name's Business] — are you answering calls at midnight?

> Hi [Name],
>
> Saw [Business Name] on Google — looks like you're one of the better-reviewed [trade type] outfits in [suburb].
>
> Quick question: how many calls do you miss while you're on the tools?
>
> Most trade owners I talk to lose 3–8 calls/week — that's $5K–$15K/month in jobs they never know about.
>
> We install AI systems that answer every call, book jobs, and chase quotes automatically. Took a plumber in Penrith from 60% answer rate to 100% — and he picked up 4 new regular clients in the first month.
>
> I do a free 30-min audit — no pitch, just showing where the money's leaking. This week any good?
>
> [Name] Clawbot | [phone] | [calendar link]

CHANNEL 2: Meta Ads (Facebook & Instagram)

Campaign Structure

Campaign Objective: Leads (native Lead Form)

Audience Targeting: - Location: Sydney Metro (20–50km radius) - Age: 30–55 - Interests: Trades businesses, HVAC, electrical, ServiceM8, Tradify, small business owner - Job titles: Business owner, self-employed, tradesperson - **Exclude:** Employees, students

Budget: Start at $30–$50/day AUD. Scale winners.

Ad Creative: HVAC Primary (Video or Static)

Hook (first 3 seconds / headline): > "Sydney AC business? You're losing $5K/month while you're on the tools."

Body copy: > Every missed call is a job gone to your competitor. > > Clawbot is an AI administrator we install in your business. It answers your calls 24/7, books jobs, sends reminders, and chases quotes — automatically. > > ✅ Never miss another job > ✅ Slash no-shows by 50% > ✅ Reclaim 10+ hours/week > > We're Sydney-based. Installation takes 14 days. > > **Book your free 30-min Workflow Audit below. We'll show you exactly where you're losing money — free, no obligation.**

CTA: Get Free Audit

Lead Form Fields: - Name - Phone (required) - Business type (dropdown: HVAC / Electrician / Plumber / Med Spa / Other) - "How many calls do you miss per week?" (dropdown: 1–2 / 3–5 / 5–10 / More than 10)

Retargeting Layer

- Pixel anyone who visits website → retarget with testimonial/case study ad
- Email list upload (past contacts) → lookalike audience

CHANNEL 3: Organic Content

Platforms: LinkedIn (for referrals/credibility) + Facebook Groups + Instagram

Content Pillars: 1. **Before/After stories** — "This electrician was losing 5 calls/day. Here's what happened after Clawbot." 2. **Educational** — "3 things your HVAC business should automate today" 3. **Behind the scenes** — Installation day, setting up the dashboard 4. **Social proof** — Client results, testimonials, screenshots

Facebook Groups to Post In: - Sydney Trades & Business Network - HVAC Australia - Electricians Australia - Small Business Owners Australia - Sydney Small Business Community

Posting Cadence: 3–5x/week on the primary platform. Quality > quantity.

---

7. SALES CALL SCRIPT (4-STAGE ZOOM)

Pre-Call Setup

- Send calendar invite with Zoom link + short pre-read: “This is a working session, not a sales pitch. We’ll map your business.”
- Prepare: Review their Google listing, check reviews, note their service area
- Have Loom demo ready + slide deck (optional)

STAGE 1: CONNECT (Minutes 0–5)

Goal: Build rapport, disarm, set agenda.

> “Hey [Name], great to meet you. Before we dive in — I want to be straight with you. This is a 30-minute working session. I’m going to ask you some questions about your business, show you where AI can help, and at the end, you decide if it makes sense to go further. No pressure either way. Fair?”

(Wait for yes)

> “Perfect. Tell me a bit about [Business Name] — how long have you been running, how many team members, what’s a typical week look like for you?”

Listen actively. Take notes.

STAGE 2: DIG (Minutes 5–15)

Goal: Uncover pain. Let them sell themselves.

Key questions (pick 3–4):

1. “When you’re out on a job, what happens when the phone rings?”
2. “How do you handle booking requests that come in after hours?”
3. “What does your week look like admin-wise — how many hours would you say you spend on scheduling, emails, follow-ups?”
4. “Have you ever lost a quote because the follow-up fell through the cracks?”
5. “What would it mean to your business if you never missed a call again?”
6. “If you could magically fix one admin problem tomorrow, what would it be?”

Bridge question: > “So it sounds like the biggest leaks are [X] and [Y]. If we could plug those — how much do you reckon that’s worth to you in a year?”

(Let them say a number. It will anchor the price conversation later.)

STAGE 3: PRESENT (Minutes 15–25)

Goal: Show the solution. Make it concrete. Don’t over-explain.

> “Okay — so what I do is build and install a custom AI administrator into your business. It’s not a generic chatbot — it’s configured specifically for [their business name], your pricing, your services, your clients.”

Walk through the 3 agents: - “The first agent handles all incoming calls and messages — answers after hours, books jobs, triages emergencies.” - “The second manages your calendar — prevents double-books, sends reminders, auto-fills gaps.” - “The third handles follow-ups — quote reminders, job updates, client check-ins — all automated.”

Show the dashboard: > “You get a dashboard — one screen — where you can see everything. What’s been booked, what’s been sent, what needs your attention.”

Address the ROI: > “You mentioned you’re probably losing [number they gave] a week in missed jobs. At your average job ticket, that’s roughly $[X] a month. Our retainer is $3,000. So even on a conservative estimate, this pays for itself in the first week.”

STAGE 4: CLOSE (Minutes 25–30)

Goal: Get a decision or a clear next step.

> “So — based on what we’ve talked about, does this feel like the right move for [Business Name]?”

(If yes:) > “Great. The way it works: I do a deeper 60-min audit with you first — that’s free, no obligation. From there we build the system, takes about 10 days, then we install. You’d be live within 2 weeks. Want to lock in the audit time now?”

(If uncertain:) > “What’s the main thing holding you back? Is it timing, budget, or you just want to think it through?”

(If budget objection:) > “Totally get it. Let me ask — what’s one new job worth to you? [*X*].*Andhowmanyjobsdoyouthinkyou*′*relosingamonthtomissedcalls*?*Sothat*′*s*[Y]. Our retainer is $3,000. At that math, you’re ahead in week one. Does that change the picture at all?”

(If not now:) > “No worries. Can I send you through a case study from another [trade type] we worked with? And if it makes sense in a month or two, reach back out — this offer will still be here.”

---

8. 90-DAY ROADMAP TO $10K/MO

Month 1: Foundation + First Client ($0 → $3–7K)

Week 1–2: Setup - [ ] Register business name (ABN if not done — service.gov.au) - [ ] Set up domain + basic landing page (Carrd or Webflow) - [ ] Configure Calendly with audit booking link - [ ] Set up CRM (HubSpot free) for lead tracking - [ ] Prepare proposal template + contract template - [ ] Set up Stripe or Square for payments (AUD) - [ ] Build HVAC target list (200 contacts, Sydney Metro)

Week 3–4: Outreach + First Close - [ ] Cold call 20 HVAC businesses/day (100/week minimum) - [ ] Send 50 cold emails/day - [ ] Post in 3 Facebook trade groups (value-first content) - [ ] Book 5–10 audit calls - [ ] Close 1 paying client at $7,500 setup + $2,500/mo

Month 1 Revenue Target: $7,500 (setup fee from Client 1)

Month 2: Systems + Second Client ($7.5K → $15K)

Week 5–6: Deliver + Document - [ ] Complete Client 1 onboarding (full 14-day delivery) - [ ] Record Loom walkthroughs for repeatable processes - [ ] Request video testimonial from Client 1 - [ ] Build out onboarding SOP (so you can deliver faster)

Week 7–8: Scale Outreach - [ ] Launch Meta Ads ($30/day HVAC lead campaign) - [ ] Continue cold calling (electricians + plumbers now) - [ ] Close Client 2 at $10,000 setup + $3,000/mo - [ ] Upsell Client 1: additional integration or agent

Month 2 Revenue: $7,500 (retainer C1) + $10,000 (setup C2) = **$17,500**

Month 3: Retainer Stack + $10K/mo Recurring ($25K → $10K MRR)

Goal: 3 active retainers

Client	Setup (paid)	Monthly Retainer
Client 1	$7,500 ✓	$2,500/mo
Client 2	$10,000 ✓	$3,000/mo
Client 3	$12,000	$3,000/mo
Total MRR		**$8,500**

- Close Client 3 in Week 9–10 (target: med spa or electrician for diversification)
- Optional: Close Client 4 at any price point to hit $10K MRR

To hit $10K MRR: - 3 clients at $3,000–$3,500/mo = $9,000–$10,500 - Or 4 clients at $2,500/mo = $10,000

Month 3 Revenue (total cash): $12,000 (C3 setup) + $8,500 MRR = **$20,500+**

Key Metrics to Track Weekly

Metric	Target
Cold calls made	100/week
Audit calls booked	5–8/week
Proposals sent	2–3/week
Close rate (audits → paid)	25–33%
MRR	+$2,500–$3,000/month

---

9. LEGAL & PROTECTION BASICS

Note: Get a solicitor to review all contracts before use. The below is framework guidance, not legal advice.

Business Setup (Australia)

- **ABN:** Register at abr.gov.au (free)
- **Business name:** ASIC business name registration ($39/year) at asic.gov.au
- **GST:** Register if you expect to exceed $75,000/year turnover (likely quickly)
- **Business bank account:** Separate from personal. CBA, NAB, or Macquarie Business work well.
- **Accounting:** Xero ($35–65/mo) or MYOB for invoicing and BAS

Contracts to Have

1. Service Agreement / Master Service Agreement (MSA)

Key clauses: - Scope of work (exactly what's included and excluded) - Payment terms (deposit + milestone + monthly) - Cancellation: 30-day notice after 3-month minimum - IP ownership: You own the agent templates; client owns their data - Limitation of liability: Cap at 3 months' fees - Acceptable use: Client agrees not to use AI for spam, fraud, or illegal purposes

2. Non-Disclosure Agreement (NDA)

- Use before sharing your methodology, tech stack, or agent configs
- Mutual NDA protects both parties

3. Data Processing / Privacy Schedule

- Australia Privacy Act 1988 applies if you handle personal information
- Especially important for med spas (health data = sensitive)

- State clearly: what data you access, how it's stored, who can access it

Insurance

- **Professional Indemnity Insurance** — covers advice/service failures (essential)
- **Public Liability** — for on-site installs (Mac Mini)
- **Cyber Insurance** — increasingly expected by commercial clients
- Get quotes from BizCover.com.au or CGU

Intellectual Property

- Your agent configurations, prompts, and processes = your IP
- Don't share raw configs with clients — give them access to the running system
- Add "Powered by Clawbot" or similar branding to dashboard where possible

Practical Protections

- Take a **50% deposit upfront** before starting any work
- Use **Stripe or Square** (paper trail, chargeback protection)
- Never start work without a signed contract
- Keep backups of all client configurations separate from their hardware

---

10. BONUS ASSETS

BONUS A: Calendly Page Copy

Page Headline: # Free 30-Min Workflow Audit — Find Your Top 3 Automation Wins

Subheadline: Book a no-pitch working session with [Your Name] from Clawbot. We'll map your business and show you exactly where AI can save you 10+ hours/week and recover lost revenue.

What Happens On This Call: - We review your current workflow (calls, scheduling, follow-ups) - We identify your top 3 automation opportunities - You leave with a clear picture of what's possible — whether you work with us or not

Who It's For: Trade business owners (HVAC, electrical, plumbing) and service businesses (med spas, clinics) in Sydney with at least 1 employee or contractor.

Who It's NOT For: Freelancers, startups, or businesses doing less than $200K/year.

What To Prepare: - Know roughly how many calls you miss per week - Have a sense of your average job ticket value - Be ready to talk about your current tools (if any)

Sessions are limited. If a time doesn't work, email [email] and we'll find one that does.

BONUS B: Objection Handling Guide

Objection	Response
“It’s too expensive”	“What does a missed call cost you? At your ticket size, you’re losing more than our retainer every week. This isn’t a cost — it’s a recovery.”
“I’m not tech-savvy”	“Neither are 90% of our clients. We set up everything. You get a simple screen and a 30-min walkthrough. If you can use Facebook, you can use Clawbot.”
“I’ll think about it”	“Totally fair. What would you need to see to feel confident? A case study? A trial period? Let me address the specific concern.”
“I already use [tool X]”	“Great — we integrate with most systems. What we add is the intelligence layer: it doesn’t just store info, it acts on it. Can we do a quick audit to see what’s not being handled today?”
“What if it makes a mistake?”	“Great question. Every agent has safety guardrails — it escalates anything uncertain to you. You’re always in control. It’s an assistant, not a replacement.”
“Can’t I just hire a receptionist?”	“You could. At $25–35/hr × 20hrs/week, that’s $2,500–$3,500/mo — and they don’t work nights, weekends, or public holidays. Clawbot does, for less.”
“I’ve heard AI is unreliable”	“That was true 18 months ago. Today’s systems handle structured tasks — booking, confirming, following up — with 95%+ accuracy. And everything gets logged so you can audit it.”
“What happens if you disappear?”	“Fair concern. Your agents run on your hardware — the Mac Mini stays at your premises. If we closed tomorrow, your system keeps running. We’re not a SaaS you’d lose access to.”

BONUS C: Client Onboarding Checklist

Pre-Kickoff (Before Audit Call)

- [ ] Contract signed and filed

- [ ] 50% deposit received
- [ ] Client intake form sent and completed (business name, tools, login prep list)
- [ ] Audit call scheduled (60 min)
- [ ] Prep: review their Google listing, reviews, services offered

Audit Call Outputs

- [ ] Top 3 automation wins documented
- [ ] Current tool stack mapped
- [ ] Agent scope agreed (which 3 agents, which 5 integrations)
- [ ] Timeline confirmed (delivery date)
- [ ] Login/access credentials collected (or sharing method agreed)

Build Phase (Days 1–10)

- [ ] Agent 1 configured: Inbox / Call Handling
- [ ] Agent 2 configured: Scheduling & Calendar
- [ ] Agent 3 configured: Follow-Up & Reminders
- [ ] All 5 integrations connected and tested
- [ ] Client tone + rules applied to all agents
- [ ] Safety guardrails set (escalation triggers defined)
- [ ] 20+ real-data test scenarios run and passed
- [ ] Mission Control dashboard built and branded
- [ ] Loom training video recorded (30 min)

Installation Day (Day 11–14)

- [ ] On-site visit booked (or remote session scheduled)

- [ ] Mac Mini configured (if hardware install)
- [ ] Dashboard URL / access delivered to client
- [ ] Loom training link sent
- [ ] 14-day Slack support channel opened
- [ ] “Go live” confirmed with client

Post-Launch (Days 14–30)

- [ ] Day 3 check-in: any issues?
- [ ] Day 7 check-in: results so far?
- [ ] Day 14 check-in: end of included support — transition to retainer
- [ ] Testimonial request sent (Day 21–30)
- [ ] Upsell conversation: additional agents, integrations, or team training

BONUS D: Niche-Specific Ad Copy Bank

HVAC / Air Conditioning

Facebook/Instagram Ad: > Your AC business loses money every time your phone rings and no one answers. > > Clawbot answers 24/7 — books emergency callouts, sends reminders, chases quotes. > > Sydney install. 14 days. Free audit first. > > DM “ADMIN AI” or hit the link. 👇

Electricians

Facebook/Instagram Ad: > You’re up a ladder. The phone rings. You can’t answer. > > That’s a $1,500 job gone to your competitor. > > Clawbot answers every call. Books the job. Sends the reminder. 24/7. > > Sydney electricians — free 30-min audit. No pitch. Just numbers.

Plumbers

Facebook/Instagram Ad: > When a pipe bursts at 11pm, the first plumber to answer gets the job. > > Is that you? > > Clawbot answers every call — nights, weekends, public holidays. Triages emergencies. Books the job. You wake up to a full calendar. > > Free audit for Sydney plumbers. Link below.

Med Spas / Skin Clinics

Facebook/Instagram Ad: > Your clinic is fully booked — but your admin is drowning. > > Clawbot handles booking confirmations, client follow-ups, and rescheduling automatically. Your front desk focuses on the clients who are actually there. > > Sydney clinics — free 30-min workflow audit. Spots are limited.

Hair & Beauty Salons

Facebook/Instagram Ad: > The chair is full. The phone won't stop. Your team can't do both. > > Clawbot books appointments, sends reminders, and follows up no-shows — automatically. 24/7. > > Free audit for Sydney salons. DM "SALON AI" to start.
